

Teach art principles & feel free to adapt this to you — creativity is encouraged for both teachers & students.

Jiji

Ages: 8-16

Materials

- Pencil, bristol paper, alcohol markers, micron pen (optional)

Art Techniques

- Blending
- Blocking out colors

Art Elements

- Line
- Shape/Form
- Color

Art Principles

- Proportion/Scale
- Contrast

Instructions

1. On bristol paper, draw out the character by breaking it down into simple shapes. I started with a 3D half circle for the pumpkin and drew out jiji
2. Draw in the pumpkin face and cut open top. Then add in an organic line to block out the candy and add in some detailed candy wrappers.
3. Outline your drawing with micron pen and erase the pencil lines (optional)
4. With alcohol markers, I started by using a dark orange for the shadowed areas and blended in a lighter orange on the rest of the pumpkin. I then colored in the mouth and eyes in yellow
5. I used a light purple for the pile of candy, but colored the wrappers with blues and yellows
6. I used a purplish-black color for Jiji, used light pink on the ears, and red for the bow
